Protestant Branches Name: _____

There are many different groups of Christians that will emerge on the Protestant side of the Protestant Reformation. Spend the rest of the class period researching one of the four main branches. Be prepared so share what you find with the class.

- Anabaptist (includes Amish, Hutterites, and Mennonites)
- Calvinism/Presbyterian
- Lutheran
- Quakers
- Anglicanism (do not research this one, we will focus on this later)

Questions to answer about the group you have chosen:

1. Where did the religion start? How is it connected the Protestant Reformation?

2. Were the followers persecuted or did they persecute others? (persecute = to treat badly)

3. What are some of their main beliefs?

4. What is something really interesting that you learned about them?

Directions: After you are done, use a large blank piece of paper to create an informational flyer to hang on the wall that includes the information above. Also, find one or two pictures to print out and put on your flyer that supports your information.
