

**Geography Concepts - Egypt**

Use political, thematic, and physical maps provided in the classroom atlas to answer the following questions.

1. What is the approximate location of Cairo, Egypt? (latitude and longitude)
2. Just before the Nile River reaches Egypt, which country does it flow through?
3. Which area of the Sahara Desert has the largest population?
4. Egypt is surrounded by two seas. What are they?
5. The Sinai Peninsula connects Africa and what other continent?
6. Looking at the map, why do you think the Suez Canal was made?
